

Activity 1: Asset Map

On a blank sheet of paper, write the name of the community you want to serve in the center of the page. Write a few bullet points about what's great about this community.

Write the word "Things" in the top left corner, the word "People" in the top right corner, the word "Institutions" in the bottom left corner, and the words "Skills/Knowledge" in the bottom right corner.

Next to each, write a few bullet points about the resources your community has access to in each of these categories.

What are the BARRIERS between these resources and your community? Draw/write them where they interrupt the flow of resources.

Things

People
